CERTIFICATIONS

- PHP Developer Certification from
SaNDSLab Technologies
- Inmakes Certified Professional in Python
with Django

Date:
Place: Kozhikode

PROFILE

I'm a junior web developer with practical experience in PHP and Python. My internships and real-world projects have equipped me with solid backend development skills and a knack for solving problems. I'm excited to bring my technical skills and enthusiasm to a new development role.

EXPERIENCE

Jr. PHP Developer

SaNDSLab TM Infopark, Thrissur

June 2024 - July 2024

Tenant Management Web Application

- Developed a feature-rich web application to streamline the management of rental business data. Key functionalities include:
- Data Management: Tracks details of owners, tenants, tax amounts, rental payments, pending dues, contract renewals, and available spaces.
- Role-Based Access:
- Superadmin: Full control over the application, including managing admins and configuring system settings.
- Admin: Manages property listings, contracts, and financial data.
- User: Accesses personalized dashboards to view payment history, contracts, and notifications.
- Automated Reminders: Alerts for pending payments, contract renewals, and upcoming deadlines.
- Dashboard & Reporting: Real-time analytics and reports on occupancy rates, revenue, and tenant records.
- Secure Authentication: Implements role-based login with robust authentication for data security.
- Scalability: Designed for expansion to accommodate additional functionalities like maintenance tracking and document storage.

SandsLab website

- Developed a company website for SaNDSLab to showcase services and solutions. The website was built using PHP and front-end technologies such as HTML, CSS, and Bootstrap, ensuring a responsive and user-friendly interface.
- Created a robust Admin Panel for website management, allowing staff to update content, manage users, and monitor web analytics. The Admin Panel included functionalities like adding and deleting pages, updating services, and managing client queries.
- Integrated MySQL for efficient database management, handling user registration, product catalog, and service details.

Jr. Python Developer

Inmakes Infotech Pvt. Ltd.

Internship | April 2023 - July 2023

- Built an eCommerce website for online product purchasing with categories, a shopping cart, and checkout functionalities.
Link : <https://github.com/salamseed/MyPythonProjects>
